GIVE YOUR CRUISER OR SHOW CAR THE MODERN RADIO TREATMENT!

Classic Look. Modern Sound.

You might know us for our Mopar Parts or Services through PremiumDashDecals and Mr.Heaterbox, but now we're offering something new for your interior.

We're partnering with Aurora Design in the USA to bring you a digital conversion service for your original factory radio.

Regardless of whether you're working on a Mopar, GM, Ford or otherwise, we know that the radio is a critical component to in the restoration process that often gets overlooked.

Keep your OEM classic look and fit, yet enjoy all the modern features of radios in new cars today.

Classic Radio Restoration

When restoring your original radio, we will replace the factory electronics with the Aurora FMR circuit board, giving you every feature you need in your ride.

*scaled up to show detail

Never Settle For Less.

We know what it's like to love your car. You take it apart, you spare no expense re-assembling it to even better than factory condition.

We have the parts, tools and techniques to successfully give you that final touch that will make weekend cruising or car shows a real pleasure.

Our radio restoration service gives you every feature you would expect to see on a modern car stereo. Get the best possible audio experience to complete your perfect classic car.

All work is done by professional Electronics Technicians with years of practical experience.

Get your radio in tip-top condition and looking great for years to come!

ALL MAKES, MODELS AND YEARS SUPPORTED 6V, 12V, Dodge, Chevy, Ford, Classic Imports and more.

No matter what kind of project you're working on, we can get that modern car sound!
